alu-sat

Heat Treatment Furnaces for Light Alloys

www.sat-thermique.com

High accuracy customized heating solutions

Long experience in NADCAP projects

> Furnaces

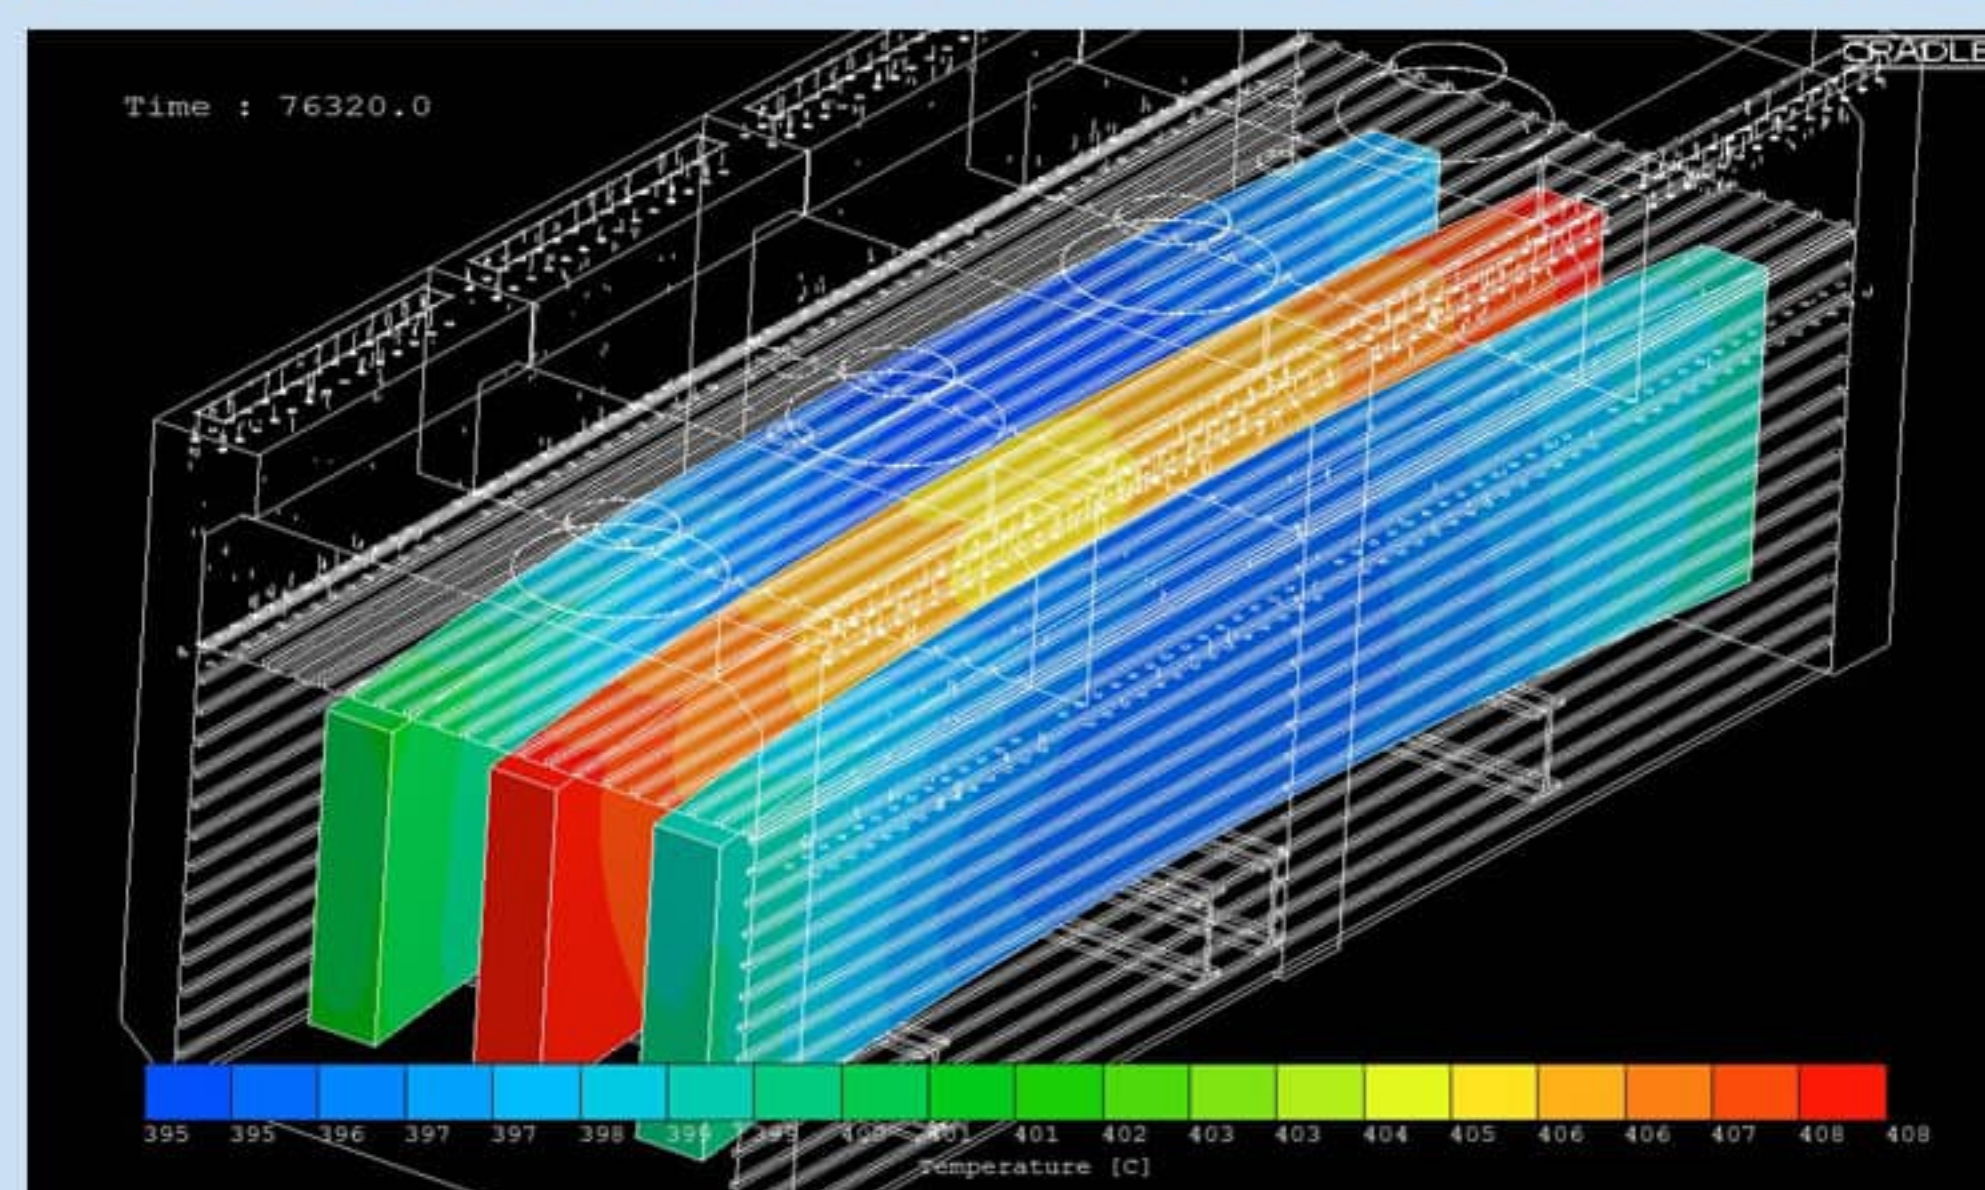

> Chain furnaces

> Engineering to fit your process

Know-how in 3D aerodynamics calculations for heating process

More than 60 years of industry experience in aerospace

- NADCAP
- AMS 2750
- BAC 5621
- RPS 953

NANSHAN GROUP

Light alloys heat treatments

Engineering solutions to fit your project

More than 60 years of industry experience in aerospace

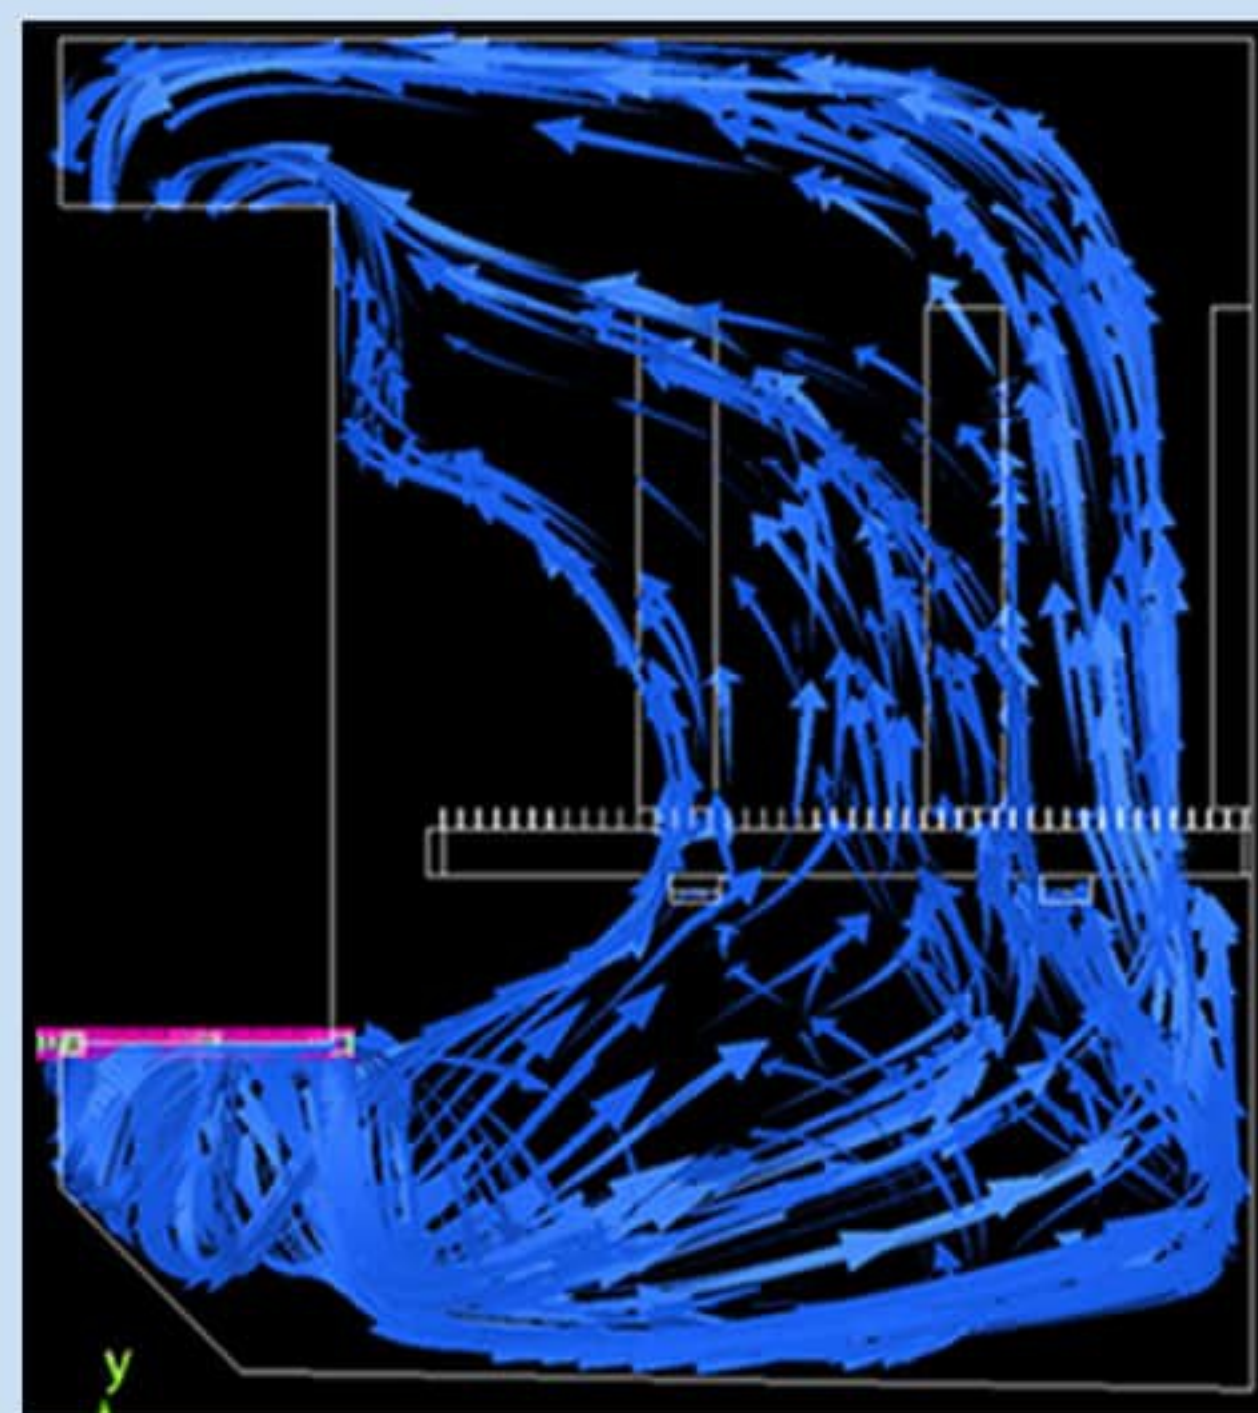

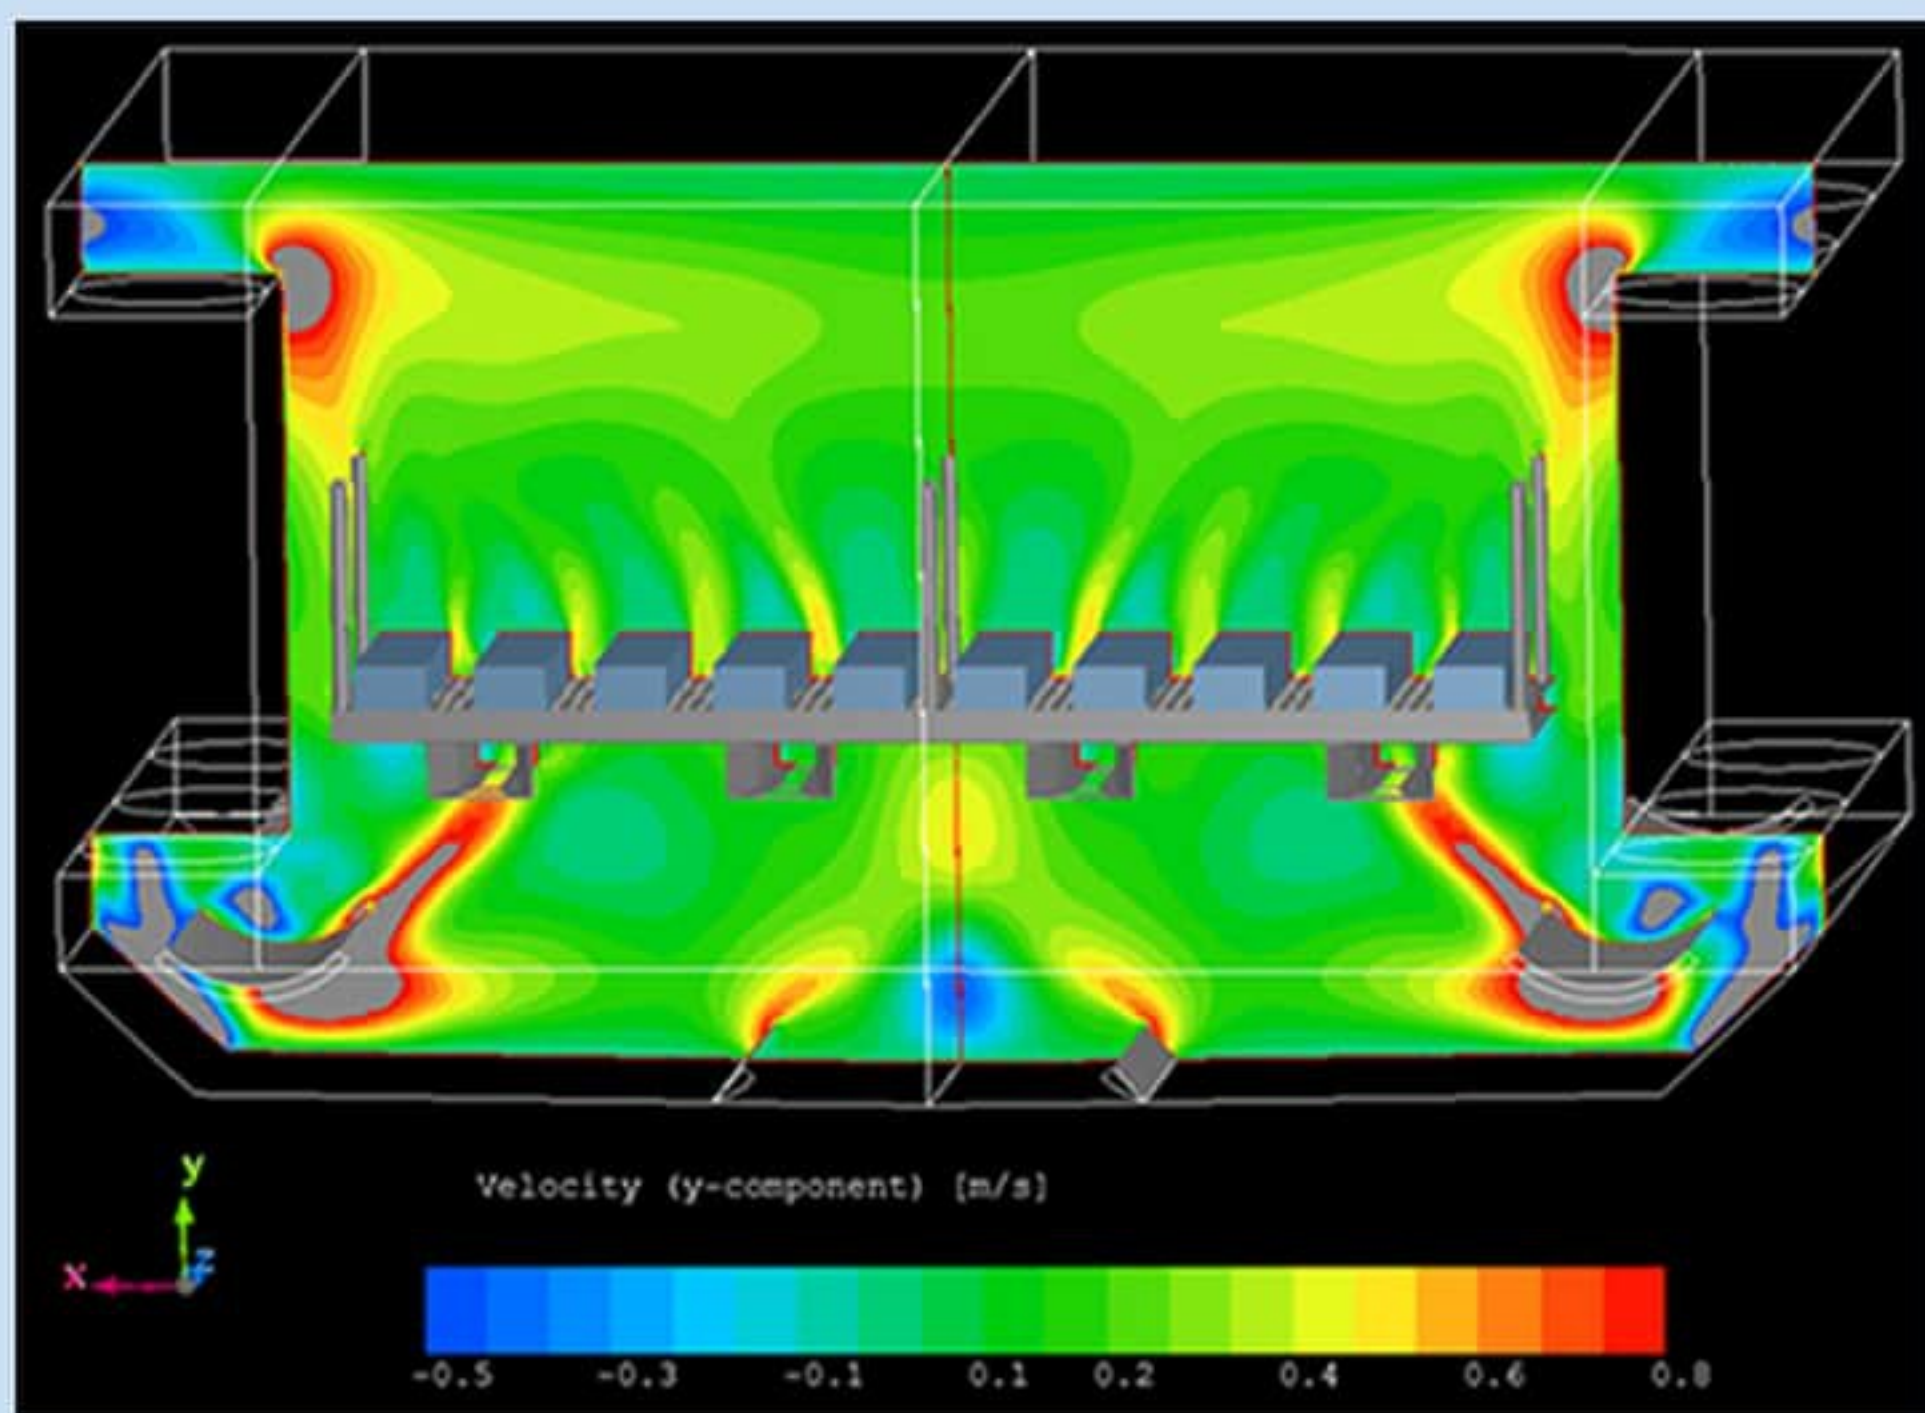

➤ Horizontal solutions with automatic conveyor

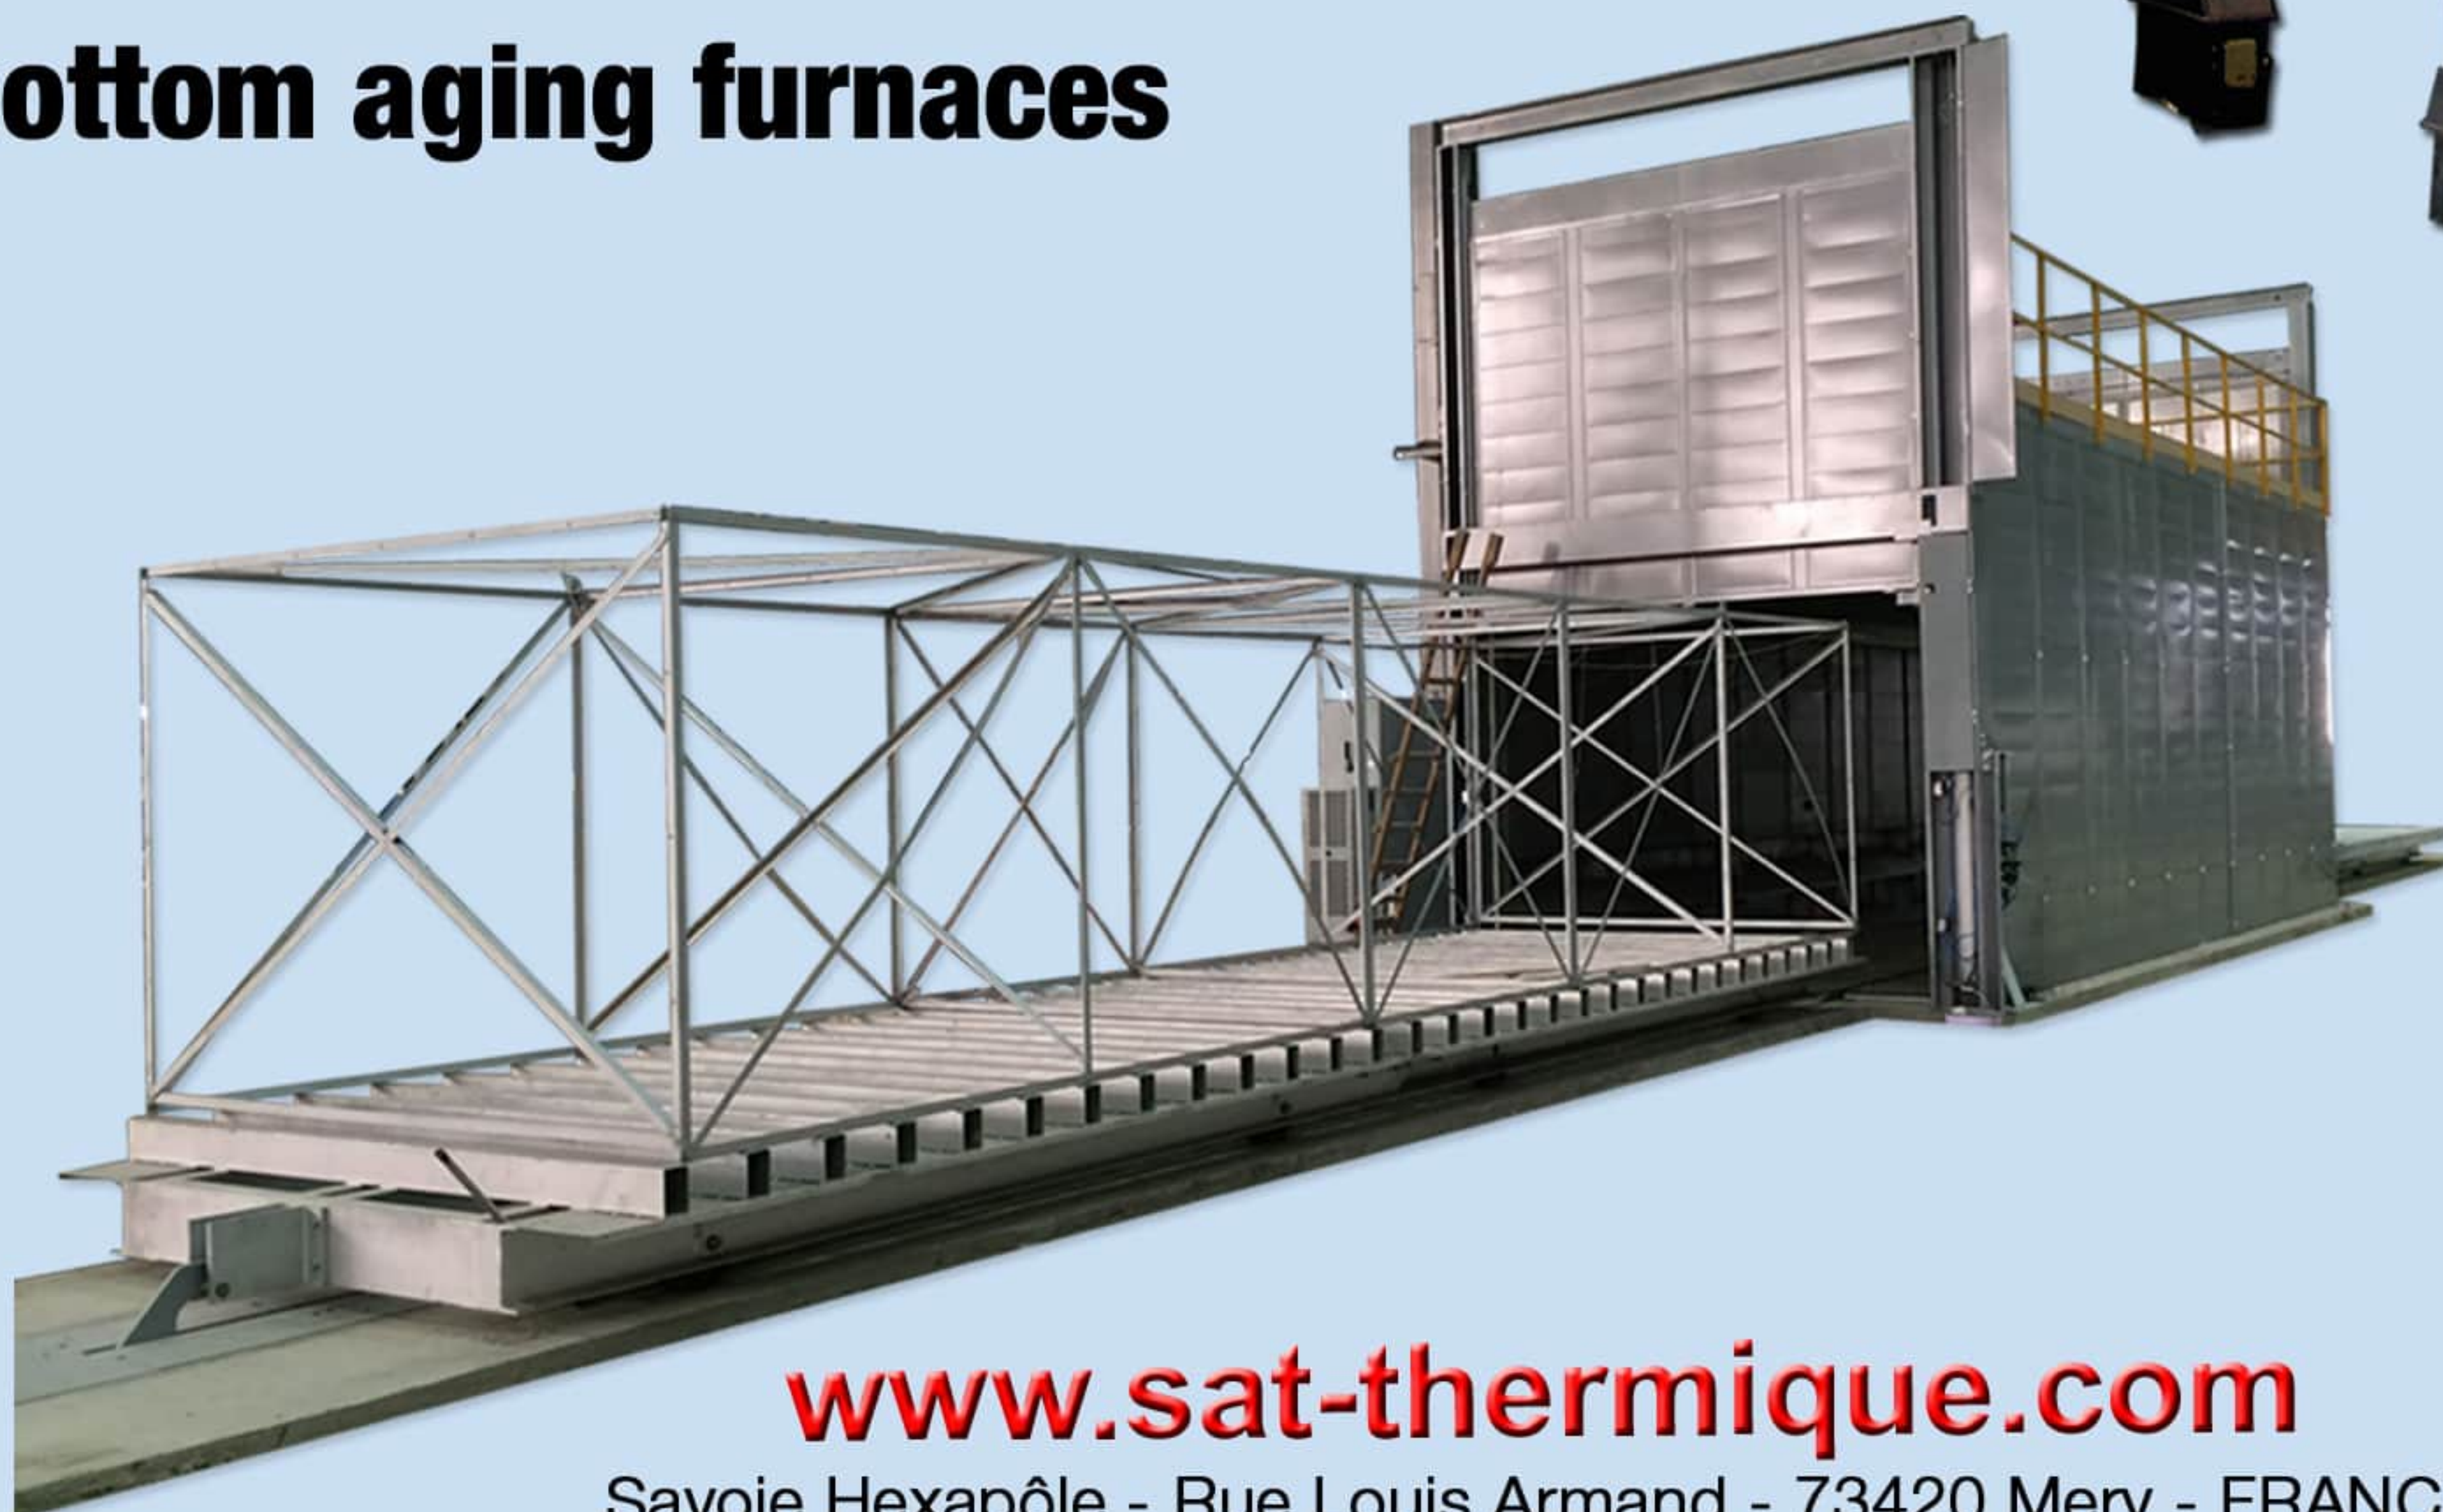

➤ Drop bottom solutions

- High accuracy temperature furnaces
- Short transfer time
- Long experience in aeraulics calculations

3D calculations for quenching process

➤ Car bottom aging furnaces
