

Industrial Heating Equipment

sat

The heat treatment expert
in forced air convection since 1953

tunnels

Industrial tunnels for continuous heat treatments

Tailor made equipments

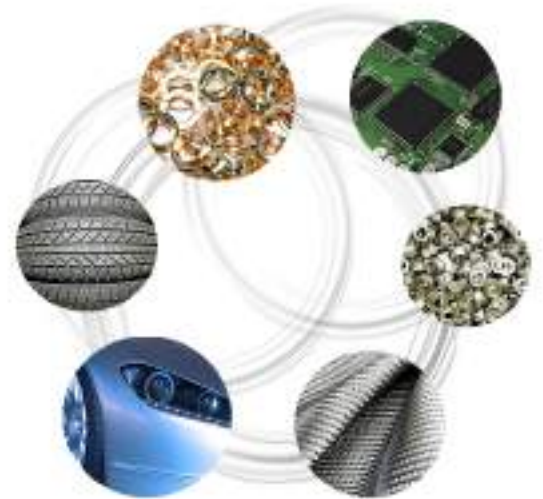

- High production turnover
- Temperature uniformity expertise through the **Turbo-Convection**
- Likely to be integrated into the process lines
- **Expertise on every type of conveyor**
- Comply with the most stringent norms
AMS 2750D, Nadcap, ATEX ...

Spiral tunnel

Every process

Baking, cooling, debugging, degassing, drying, enameling, polymerization, post-polymerization, preheating, , tempering, sintering, stabilization, sterilization, vulcanization (...)

Technical specifications fully satisfied !

- Maximum safety level for operators
- **Every industrial sector**
Aeronautical, aerospace, automotive, electrical construction, forges & foundries , rail, rubber, sport, textile, (...)

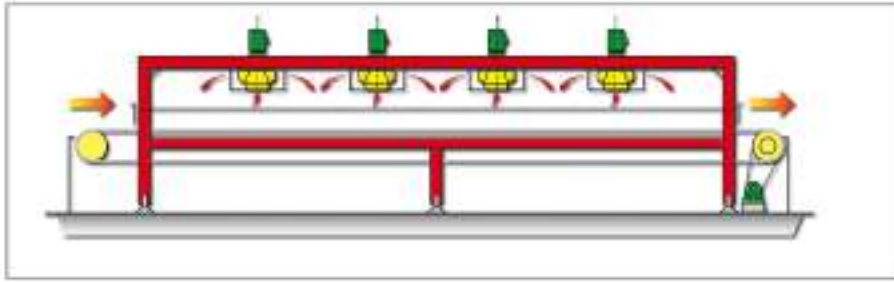

Conveyor belt tunnel

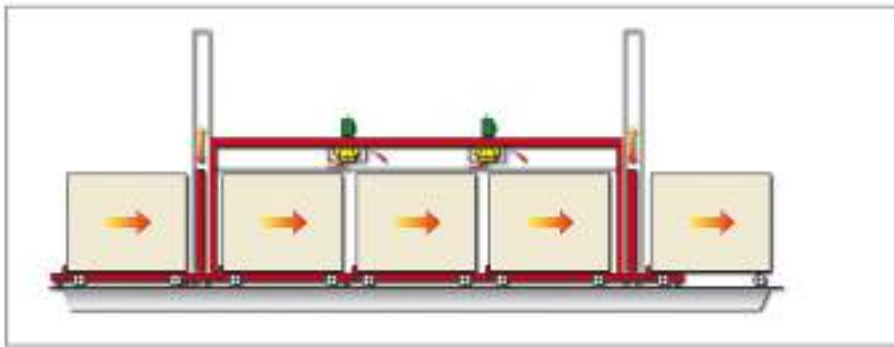

They trusted us !

ABB, AIRFORGE, CREUZET AERO, DYNASTAR, PEUGEOT, SAFT, SCHNEIDER ELECTRIC, SIEMENS, SNR, SOVOUTRI, STAUBLI, TEFAL, TEXTILES DE BELMONT, VALEO, ZF LEMFÖDER (...)

Belt kiln

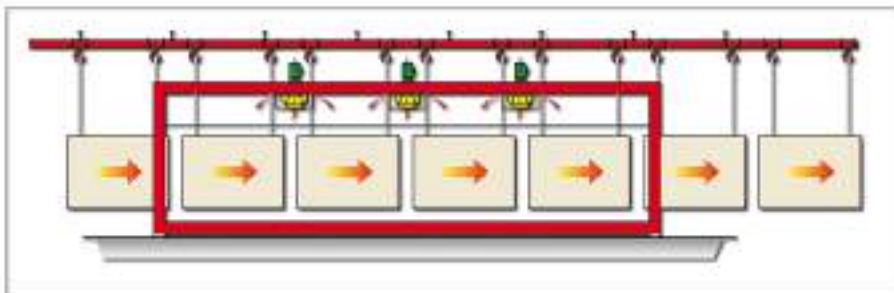

Tunnel with ground handling

- Retaining click beam
- Rolls
- Conveyor belt
- Trolleys

Tunnel with air handling

- Conveyor
- Swing
